## Education

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2017	Bachelor of Arts	Kalinga University, Raipur, Chhattisgarh	64.75%
2014	Intermediate (Class XII)	Marwari College, Kishanganj, Bihar	54.4%
2012	Matriculation (Class X)	Goalpokher Lodhan High School, Goalpokher, West Bengal	60.0%

## Internship and Certifications

### Newton School | Newton School Coding Bootcamp

February 2022 - Present

- Full-Stack Web Development and Problem Solving.
- Technical Stack Learnt: HTML, CSS, SASS, JavaScript, Bootstrap, React, Redux, Node.
- Version Control: Git, GitHub
- Worked on various projects like Portfolio, Calendar, University Website, Tv Maze, and Counter Application etc.

## Projects

### Portfolio (CV) | Newton School ([link](#))

November 2022 - November 2022

- Features: Fully Responsive, Light and Dark Mode, animation on a scroll, spinner loader, form validation, Spinner Loader.
- Tech Stack Used: React, CSS, Bootstrap.
- Description: It is a portfolio online representation of my work, as well as my skills and experiences.

### TvMaze | Newton School ([link](#))

August 2022 - August 2022

- Feature: Searching through Actor or Show Name. Suggest similar content too.
- Tech Stack Used: JSX(HTML), React JS(Hooks, Component, fetch API), Bootstrap.
- Description: As more people turn to the internet for content, Customized and easy search options boost user retention. Similar content recommendations increase the engagement and consumption time of users.

### Calendar Project | Newton School ([link](#))

August 2022 - August 2022

- Features: It is highlighted the current date, and it can show the previous month and the next month.
- Technical stack used: HTML, CSS, JavaScript
- Description: Digital calendars are now more frequently used by individuals than family wall calendars.

### Increment and Decrement Project | Newton School ([link](#))

July 2022 - July 2022

Features:

- Increment: Highest order is 10.
- Decrement: below 0 will not be a decrement like -1.
- Reset: After clicking on the reset button will be reset the value.

Tech Stack Used: React.js and CSS

Description: Writing a simple addition-subtraction program with three buttons. One button increments by one and the other decrements by 1 and one reset after clicking the reset button.

### University Website | Newton School ([link](#))

July 2022 - July 2022

- Features: The user can get information which is given by the website developer and it's fully Responsive.
- Tech Stack Used: HTML, CSS, Bootstrap.
- Description: Every person needs education, so schools, colleges, coaching centers, and universities are necessary. Therefore, a website would act as a link between students and educational.

## Skills

Computer languages	CSS, HTML, JavaScript
Software Packages	React, Node, Bootstrap
Others	Microsoft Office, Photoshop

## Co-Curricular Activities

- Actively participated in various coding competitions which were hosted by Newton School.
- Computer course of Diploma in Computer Application (ADCA).
